

## HOUSEWARMING PROJECT

Moving into housing is an exciting time that offers hope for individuals and families who have been living in shelters or on the streets. However, many of our clients are moving into their new homes with very few personal possessions. To help ease the transition into stable housing, we work with volunteers to provide the household items that are crucial for our clients to make a fresh start and make their new units feel more like home.

By forming a team to provide a Housewarming Kit, you and your family, business, or community group can help our neighbors experiencing homelessness create a home that will provide the stability and comfort necessary to creating a brighter future for themselves so that can be a part of our thriving community.

### HOW IT WORKS
